

MODULAR COMBINATIONS FOR THE DESIGNATED CERTIFICATE IN VETERINARY PUBLIC HEALTH (VPH)

The following modules are available, either as free-standing modules or as part of the Certificate in Advanced Veterinary Practice (CertAVP) and the designated CertAVP in Advanced Veterinary Practice in VPH:

Reference	Title of module	Value
B-GVM.5	Global Veterinary Medicine	10 credits
C-VPH.1	Animal Welfare in the Food Chain	10 credits
C-VPH.2	Hygienic Production of Food	10 credits
C-VPH.3	Zoonoses and infectious diseases	10 credits
C-VPH.4	Hygienic Production of Food II: Food Technology and the Consumer	10 credits
C-VEPI.1	Veterinary Epidemiology: Methods in surveillance and field investigation	10 credits
C-VEPI.3	Veterinary Epidemiology: Quantitative methods	10 credits

For the designated CertAVP in VPH, candidates must gain a total of 60 credits. The three modules below must be achieved:

Reference	Title of module	Value
A-PKS.1	Professional key skills	15 credits
B-CKS.0	Clinical key skills	5 credits
B-GVM.5	Global Veterinary Medicine	10 credits

A further three modules must be selected from the list of 'C' modules below:

C-VPH.1	Animal Welfare in the Food Chain	10 credits
C-VPH.2	Hygienic Production of Food	10 credits
C-VPH.3	Zoonoses and infectious diseases	10 credits
C-VPH.4	Hygienic Production of Food II: Food Technology and the Consumer	10 credits
C-VEPI.1	Veterinary Epidemiology: Methods in surveillance and field investigation	10 credits
C-VEPI.3	Veterinary Epidemiology: Quantitative methods	10 credits

The modules for VPH have been designed deliberately with themes and suggested topic areas to enable providers and assessors with flexibility to link existing teaching programmes (e.g., components of Masters courses) to the Certificate in Advanced Veterinary Practice.

Suitable university courses currently available include:

Bristol University	MSc in meat science
Royal Veterinary College	Distance learning modules in VPH
The London School of Hygiene and Tropical Medicine	Various Masters courses
Glasgow University	Masters course in VPH
Edinburgh University	MSc in infectious diseases
Liverpool University	MSc in veterinary infection and disease control
Liverpool School of Tropical Medicine	MSc course in veterinary parasitology
University of London	Distance learning MSc course in veterinary epidemiology and public health

Please note that there may well be other suitable courses which are not included in the list above.
